```
Question 1
Correct
Marked out of 5.00
```

create an interface Playable with a method play() that takes no arguments and returns void. Create three classes Football, Volleyball, and Basketball that implement the Playable interface and override the play() method to play the respective sports.

```
interface Playable {
    void play();
}
class Football implements Playable {
    String name;
    public Football(String name){
        this.name=name;
    }
    public void play() {
        System.out.println(name+" is Playing football");
    }
}
```

Similarly, create Volleyball and Basketball classes.

## Sample output:

```
Sadhvin is Playing football
Sanjay is Playing volleyball
Sruthi is Playing basketball
```

#### For example:

| Test | Input                       | Result  |
|------|-----------------------------|---|
| 1    | Sadhvin<br>Sanjay<br>Sruthi | Sadhvin is Playing football<br>Sanjay is Playing volleyball<br>Sruthi is Playing basketball |
| 2    | Vijay<br>Arun<br>Balaji     | Vijay is Playing football<br>Arun is Playing volleyball<br>Balaji is Playing basketball     |

#### **Answer:** (penalty regime: 0 %)

```
1 ▼ import java.util.Scanner;
 2
    interface Playable
 3 ▼
    {
 4
        void play(String name);
5
 6
    class Football implements Playable
 7 •
    {
 8
        public void play(String name)
9
            System.out.println(name + " is Playing football");
10
11
12
    class Volleyball implements Playable
13
14 ▼ {
        public void play(String name)
15
16
17
            System.out.println(name + " is Playing volleyball");
18
19
20
    class Basketball implements Playable
21 •
    {
22
        public void play(String name)
23
        {
24
            System.out.println(name + " is Playing basketball");
25
```

```
۵۷
27 ▼ public class Testplayable{
28 🔻
        public static void main(String args[]){
29
            Scanner s=new Scanner(System.in);
30
31
            String fb1=s.nextLine();
            String vb1=s.nextLine();
32
33
            String bb1=s.nextLine();
34
            new Football().play(fb1);
            new Volleyball().play(vb1);
35
            new Basketball().play(bb1);
36
37
38
39
        }
40
```

|   | Test | Input                       | Expected  | Got   |          |
|---|------|-----------------------------|---|---|----------|
| ~ | 1    | Sadhvin<br>Sanjay<br>Sruthi | Sadhvin is Playing football<br>Sanjay is Playing volleyball<br>Sruthi is Playing basketball | Sadhvin is Playing football<br>Sanjay is Playing volleyball<br>Sruthi is Playing basketball | <b>~</b> |
| ~ | 2    | Vijay<br>Arun<br>Balaji     | Vijay is Playing football<br>Arun is Playing volleyball<br>Balaji is Playing basketball     | Vijay is Playing football<br>Arun is Playing volleyball<br>Balaji is Playing basketball     | ~        |

11

```
Question 2
Correct
Marked out of 5.00
```

```
Create interfaces shown below.

interface Sports {
public void setHomeTeam(String name);
public void setVisitingTeam(String name);
}
interface Football extends Sports {
public void homeTeamScored(int points);
public void visitingTeamScored(int points);
public void visitingTeamScored(int points);
create a class College that implements the Football interface and provides the necessary functionality to the abstract methods.
sample Input:
Rajalakshmi
Saveetha
22
21
```

Output:

Rajalakshmi 22 scored Saveetha 21 scored

Rajalakshmi is the Winner!

### For example:

| Test | Input                               | Result  |
|------|-------------------------------------|---|
| 1    | Rajalakshmi<br>Saveetha<br>22<br>21 | Rajalakshmi 22 scored<br>Saveetha 21 scored<br>Rajalakshmi is the winner! |

Answer: (penalty regime: 0 %)

Reset answer

```
1 v import java.util.Scanner;
   interface Sports {
    public void setHomeTeam(String name);
    public void setVisitingTeam(String name);
 4
 5
 6
 7

▼ interface Football extends Sports {

```
Question 3
Correct
Marked out of 5.00
```

RBI issues all national banks to collect interest on all customer loans.

Create an RBI interface with a variable String parentBank="RBI" and abstract method rateOfInterest().

RBI interface has two more methods default and static method.

```
default void policyNote() {
```

System.out.println("RBI has a new Policy issued in 2023.");

}

static void regulations(){

System.out.println("RBI has updated new regulations on 2024.");

}

Create two subclasses SBI and Karur which implements the RBI interface.

Provide the necessary code for the abstract method in two sub-classes.

### Sample Input/Output:

RBI has a new Policy issued in 2023

RBI has updated new regulations in 2024.

SBI rate of interest: 7.6 per annum.

Karur rate of interest: 7.4 per annum.

### For example:

| Test | Result  |  |
|------|---|--|
| 1    | RBI has a new Policy issued in 2023<br>RBI has updated new regulations in 2024.<br>SBI rate of interest: 7.6 per annum.<br>Karur rate of interest: 7.4 per annum. |  |

### Answer: (penalty regime: 0 %)

```
1 → interface RBI{
 2
        String parentBank="B";
 3
        void rateOfInterest();
 4
        default void policyNote(){
 5
            System.out.println("RBI has a new Policy issued in 2023");
 6
 7
        static void regulations(){
            System.out.println("RBI has updated new regulations in 2024.");
8
 9
10
   }
11 v class SBI implements RBI{
12 •
        public void rateOfInterest(){
13
            System.out.println("SBI rate of interest: 7.6 per annum.");
14
15
16 •
    class Karur implements RBI{
        public void rateOfInterest(){
17
18
            System.out.println("Karur rate of interest: 7.4 per annum.");
19
20
21
   public class Main{
22 •
23 -
        public static void main(String args[]){
24
            SBI s=new SBI();
25
            s.policyNote();
26
            RBI.regulations();
27
            s.rateOfInterest();
28
            Karur k=new Karur();
29
            k.rateOfInterest();
```

30 | 31 |} 32 |

|          | Test | Expected  | Got   |          |
|----------|------|---|---|----------|
| <b>~</b> | 1    | RBI has a new Policy issued in 2023<br>RBI has updated new regulations in 2024.<br>SBI rate of interest: 7.6 per annum.<br>Karur rate of interest: 7.4 per annum. | RBI has a new Policy issued in 2023<br>RBI has updated new regulations in 2024.<br>SBI rate of interest: 7.6 per annum.<br>Karur rate of interest: 7.4 per annum. | <b>~</b> |
